

Irucka Embry, E.I.T. (Engineer-in-Training) is a being, or life-form, thereby connecting him to all Life and secondly he is a human being with many creative talents and aspirations. He is presently pursuing a Masters of Engineering with a Concentration in Environmental Engineering at Tennessee State University (TSU). He is the Principal of EcoC<sup>2</sup>S (<https://www.ecoccs.com>), which is a Nashville, Tennessee-based small business that offers diverse services ranging from ecological gardening to tutoring to Free/Libre and Open Source Software (FLOSS) implementation (as opposed to proprietary, closed-source software) to promoting healthy living through the Read the Labels Campaign.
